LIVESTOCK SLAUGHTER, MEAT, AND LARD PRODUCTION, 1960

Red meat production in 1960 totaled 28.2 billion pounds, up 3 percent from 1959, according to the Crop Reporting Board. Beef production in 1960 was 14.7 billion pounds--up 8 percent from the 1959 production of 13.6 billion pounds. Veal production totaled 1.1 billion pounds--10 percent above the 1959 production of 1.0 billion pounds. Lamb and mutton production totaled 0.8 billion pounds--up 4 percent from the previous year. Pork production totaled 11.6 billion pounds--down 3 percent from the 12.0 billion pounds produced in 1959. Beef accounted for 52 percent of the total red meat production in 1960, while pork made up 41 percent. Veal accounted for about 4 percent and lamb and mutton 3 percent. Lard production totaled 2.6 billion pounds in 1960 compared with 2.8 billion pounds in 1959.

The number of cattle slaughtered in 1960 was 10 percent above 1959. Cattle slaughtered under Federal inspection was up 11 percent from a year earlier, other commercial slaughter increased 7 percent, and farm slaughter increased 1 percent. Calf slaughter in 1960 was up 7 percent. Slaughter of calves under Federal inspection was up 8 percent, while other commercial slaughter was up 6 percent, but farm slaughter was down 1 percent. The total number of sheep and lambs slaughtered in 1960 increased 5 percent from a year earlier. The number of sheep and lambs slaughtered under Federal inspection was up 4 percent, and other commercial slaughter was up 9 percent, while farm slaughter decreased 2 percent from one year earlier. Total number of hogs slaughtered in 1960 was 4 percent less than in 1959. Slaughter in Federally inspected plants decreased 4 percent, other commercial slaughter was approximately the same as the previous year, and farm slaughter decreased 11 percent.

Slaughter cattle averaged 9 pounds lighter than a year earlier, calves averaged 8 pounds heavier, but hogs averaged 1 pound lighter, and sheep and lambs were unchanged from 1959.

Slaughter in Federally inspected plants and other commercial plants is included in the monthly estimates. Farm slaughter estimates are on a quarterly basis only. The farm slaughter estimates have been revised for the years 1955-59. The number of livestock slaughtered under Federal inspection is obtained from the Meat Inspection Division, Agricultural Research Service.
